So a big variety of weapons, a lot of enemies to punch and spit on. The creator of the game and the main character of the game is a bad wolf and the game focus is to beat the other bad wolf who turned him into a bad wolf and made him to kill the other bad wolfs. Wolf's fury is different from other beat'em up games by the fact that he doesn't have enemies like punches and kicks, he has a special attack but to obtain it you need to combine both his left and right hand. The game has different modes like Story and Adventure modes. With adventure mode you can view the story through a cinematic view whereas Story mode will change the game into a 2D view. It has the option of easy, normal and hard difficulty. Wolf's fury is known for having a lot of colors in his skin (specially black, brown and white) as well as two different faces for the wolf. The game is a limited edition of 60 copies and has a poster design with the wolf named "René", the creator of the game and a special edition with a special weapon (a huge machete). Those who bought the game before the 70th of march 2018 will receive an extra code for a fat pack that contains weapons, levels and skins. Wolf's fury has been released on Steam on the 31st of July 2017. It is currently available for sale and can be played in its entirety for free. game on steam beating the bad wolf's. making a new portal.
