96.7 KISS FM Stream For Windows [March-2022]

96.7 KISS FM Stream is a simple widget for your desktop, providing direct access to the radio channel available at 967kissfm.com. It comprises limited functionality and can be easily used, even by less experienced users. The GUI is represented by a small, circular frame that you can move anywhere on the screen, by using the mouse cursor. Therefore, you can easily switch to it while working in other applications. Pausing and resuming the audio stream is done by double-clicking the frame. Unfortunately, 96.7 KISS FM Stream does not integrate any other options or configurable parameters of its own. Thanks to the built-in Yahoo! Widget Engine settings (which may be applied to all widgets), you can enable the panel to stay on top or below other windows, to ignore mouse events and to prevent dragging. Plus, you can set its opacity level to a preset value, ranging between 20% and 100%. The gadget is very low-demanding when it comes to CPU and RAM, so it doesn't interrupt user activity. It has a good response time and works well, without causing the Yahoo! platform to freeze, crash or pop up errors. Thanks to its overall simplicity, 96.7 KISS FM Stream should please all users. 96.7 KISS FM Stream is a simple widget for your desktop, providing direct access to the radio channel available at 967kissfm.com. 96.7 KISS FM Stream Crack + PC/Windows

96.7 KISS FM Stream is a free widget for your desktop. It provides direct access to the radio channel available at 967kissfm.com. This free tool is low-demanding and has a good response time. 96.7 KISS FM Stream is designed to be used as a drop-down list. In it, you will be able to listen to the local radio or, if its bandwidth allows it, to access the streams from other radio stations around the world. For instance, with just one click of the mouse you can instantly play a real-time audio stream from our KNX 100 FM station in Southampton. You can use the program as easily as a simple panel, and it is adaptable to any desktop environment. 96.7 KISS FM Stream supports the common platforms such as Mac, Windows, Linux, XP, Vista, 7, 8 and 9, and is compatible with Internet Explorer, Firefox and Chrome. It needs just few megabytes of RAM and has a small CPU demand. 96.7 KISS FM Stream Tabs Once the widget appears on your desktop, you can press the F8 key to open its menu. The list that it shows includes several tabs: Speed: it provides access to the information displayed in the radio window. If it is supported by the radio station's feed, this tab will display music genre, song title and the album/songs played in chronological order. Broadcast: this tab will show the date and the time for the start of the show. It includes information on the current hour, minute, second, song played on the show, the station name and the DJ name. Settings: you can enter your username and password to authorize and manage the widget. Please keep in mind that it would be prudent to avoid giving out your username and password. RSS Reader: the RSS Reader tab will show a list of web sites where you can easily stream audio, video, news and software updates. RSS Reader: the RSS Reader tab will show a list of web sites where you can easily stream audio, video, news and software updates. RSS Reader: you can access the Web Sites table and select a few stations from among the few that fit your listening preferences. This allows you to listen to the radio channel on the go. Additionally, you can bookmark them for a more personalized listening experience. 96.7 KISS FM Stream Manual Config 96.7 K

What's New in the 96.7 KISS FM Stream?

83% Ladner Date added: 2008-07-23 Date removed: 2008-07-23 The widget uses the Yahoo! Widgets widget engine to enable customization and complete development freedom. The widget has a frame that can be easily resized with the mouse, allowing for the creation of a small RSS reader. In addition, it incorporates a number of customizable parameters, such as the link format (which includes the option to configure font, size and color for the links), RSS feed display and many others. The controls are included in a panel to the side, and each option or parameter is accessible through shortcut keys. If you need to use this widget in a compact form, you can delete the controls panel by pressing the "T" key. 96.7 KISS FM Stream Description: Web-based radio streams that you can listen to from anywhere at the website and many others - streaming radio, but compatible with many browsers and other devices. The service is free and completely legal. 97.7 Pulse FM Date added: 2008-07-23 Date removed: 2008-07-23 The widget is very small and compact, but it is also fully customizable and can be easily used, even by less experienced users. It should please all users. It uses the Yahoo! Widgets widget engine to enable customization and complete development freedom. The widget has a frame that you can easily resize with the mouse, allowing for the creation of a small RSS reader. The controls are included in a panel to the side, and each option or parameter is accessible through shortcut keys. If you need to use this widget in a compact form, you can delete the controls panel by pressing the "T" key. Description: - UPnP Client - Download Manager - List View - List View - List View - Button
