Microsoft Student - Thesaurus Word.Q: Override AddAtAsync in the cache while changing the id of the cache item (C#) I am working on an ASP.NET Core 2.2 application where I have a cache entity which is used as a DataCache (and I also have an object that implements a custom IDisposable interface. My problem is that I am unable to change the id while saving the cache item and vice versa. As I am working on a docker environment I thought I could work around this in the code by adding a new class that extends my object and that has an override to AddAtAsync. The problem is that I have to add the new class to a AssemblyInfo.cs
