

Second, I'm really focused on making it easy for beginners and CNC milling users. G-Wizard has many features for advanced users and professionals. But for those of you who are just getting started, as G-Wizard does, there are a few tips that can help you get started. Here are three key things to look out for: 1) G-Wizard comes with ready-to-print map files. This makes it easy to get started because there are plenty of ready-made card or business card templates available. You can choose from several different free map packs that include beautiful map templates.
