Www.littleraingames.caMESSAGE: We just released our follow up video, I recommend watching that one instead. Much better tutorial using 2 Kinects, also go more indepth on Kinects vs PlayStation Eyes. We do not how ever compare software, I think iPi Mocap studio is your best bet, and only one worth it for production. Tutorial on how to make motion capture animations, we use 2 programs, iPi Mocap Studio, and Kinect v2 animator. Wwww.mobiology.netMESSAGE: We just released our follow up video, I recommend watching that one instead. Much better tutorial using 2 Kinects, also go more indepth on Kinects vs PlayStation Eyes. We do not how ever compare software, I think iPi Mocap studio is your best bet, and only one worth it for production. Tutorial on how to make motion capture animations, we use 2 programs, iPi Mocap Studio, and Kinect v2 animator. Ipi Mocap studio 5 1.2 full. First timer here. I would be grateful if you could help. A tutorial on how to record from Ipi Mocap studio using the keyboard and how to manually edit a recorded file. Third version of the manual. Thanks again. Screenshot. If you are having trouble with studio you will probably be having trouble with control panel too. If you're having a hard time opening the mocap studio startup folder all you need to do is open your task manager and click file and properties. There you will be able to open the associated folder. Now open the IPI Mocap Studio 5.1.6 folder and open the Program file after opening open the shortcut through File and then goto properties and open the target folder you just opened and uncheck the box that says open folder containing file. This will make sure the same folder is opened every time you open IPI Mocap studio. If you are still having trouble check your task manager and click file and properties on the top right. Enter the IPI Mocap Studio folder and click properties on the bottom left. Click the open file tab and enter the startup folder and then click ok. 5ec8ef588b
