I just recently purchased your online course to update my Adobe CS4 understanding. I was able to follow the course with no problems whatsoever. Thanks for a great product. I think we will be doing a lot more Adobe business in 2015. First thing, I just purchased your "Photoshop Skill Builder" to learn how to work with favorite software in Adobe! (I have been a "switcher" for years) I was amazed how quickly I was able to master the core functions of Photoshop CC. I haven't even scratched the surface with this product and I am so glad I made a wise choice when I ordered this. This is a terrific and powerful product A+++++ I just wanted to thank you so much for this great review, you have done a fantastic job! I was worried about buying Photoshop CC, I thought it would be way too expensive for what I really need it for (an online course with only a few training and one project to do). I was really happy with the CC price and decided to give it a chance anyway. Thanks again for your review and all the great freebies you provide to us. I'm sure this course will help me a lot as I've been a Photoshop user for years and know the huge overloading trend many photographers are in. I love your reviews, you seem to have put a lot of research into them and it shows. I've been using Adobe Photoshop for many years, but when the CS4 came out I wasn't interested in investing the time to learn something different so stuck to getting it for free with it. But the more I learned about

it, the more I thought I should invest in being a member of the Adobe family. I bought the Creative Cloud and couldn't be happier with the upgrade. Keep up the good work!

Lifetime upgrades — If you need Photoshop, you'll need to subscribe to Adobe's subscription service.
